7. *Mr Nixon* (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing August 1, 1989, and ending October 31, 1989, such payments to be charged to the proper appropriation following the voting of supply. *July 17, 1989.*

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
17. *Debated July 13, 1989.*

18. *Debated July 13, 1989.*
19. *Mr Cureatz—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. July 6, 1989.*
20. *Mr Furlong—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. July 13, 1989.*
21. *Mr Hampton—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. July 17, 1989.*
22. *Mr Kormos—Resolution—That in the opinion of this House, the Government of Ontario should immediately amend the Ontario Drug Benefit Act, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a drug or listed drug product; further, that a drug or listed drug product purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario. July 17, 1989.*

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

Ballot Item Numbers 15 and 16. *Debated July 13, 1989.*

Ballot Item Number 17. *To be debated on Thursday, July 20, 1989.*

*Mr Kormos*—Resolution—That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug or listed drug product*; further, that a *drug or listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario.

Ballot Item Number 18. *To be debated on Thursday, July 20, 1989.*

*Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

Ballot Item Number 19. *To be debated on Thursday, July 27, 1989.*

*Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.

Ballot Item Number 20. *To be debated on Thursday, July 27, 1989.*

*Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future.

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
  19. *Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes

and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. *July 6, 1989.*

20. *Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. *July 13, 1989.*
  21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
  22. *Mr Kormos*—Resolution—That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug or listed drug product*; further, that a *drug or listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario. *July 17, 1989.*

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
19. *Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. *July 6, 1989.*
20. *Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and

Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. *July 13, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
  22. *Mr Kormos*—Resolution—That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug* or *listed drug product*; further, that a *drug* or *listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario. *July 17, 1989.*

*Mr Kormos*—Resolution—That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug or listed drug product*; further, that a *drug or listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario.

Ballot Item Number 18. *To be debated on Thursday, July 20, 1989.*

*Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

Ballot Item Number 19. *To be debated on Thursday, July 27, 1989.*

*Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.

Ballot Item Number 20. *To be debated on Thursday, July 27, 1989.*

*Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level

which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future.

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a

Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. May 17, 1989.*
  19. *Mr Cureatz—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. July 6, 1989.*
  20. *Mr Furlong—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of*

Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. *July 13, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
  22. *Mr Kormos*—Resolution—That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug* or *listed drug product*; further, that a *drug* or *listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario. *July 17, 1989.*

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Standing Order 71 (d).)*

Ballot Item Number 17. *To be debated today.*

*Mr Kormos*—Resolution—That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug* or *listed drug product*; further, that a *drug* or *listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario.

Ballot Item Number 18. *To be debated today.*

*Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

Ballot Item Number 19. *To be debated on Thursday, July 27, 1989.*

*Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.

Ballot Item Number 20. *To be debated on Thursday, July 27, 1989.*

*Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level

which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future.

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a

Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. May 17, 1989.*
  19. *Debated July 20, 1989.*
  20. *Mr Furlong—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. July 13, 1989.*
  21. *Mr Hampton—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. July 17, 1989.*

Ballot Item Number 19. *To be debated on Thursday, July 27, 1989.*

*Mr Furlong—Resolution—*That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.

Ballot Item Number 20. *To be debated on Thursday, July 27, 1989.*

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
20. *Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive

review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. *July 13, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
  23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
  24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
  25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*

*(Precedence in accordance with the Standing Order 71 (d).)*

Ballot Item Number 19. *To be debated on Thursday, July 27, 1989.*

*Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.

Ballot Item Number 20. *To be debated on Thursday, July 27, 1989.*

*Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future.

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.  
  
Therefore, this House:  
  
  - 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
20. *Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive

review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. *July 13, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*

26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

1) urges the Minister of the Environment to resign; and

2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

20. *Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. *July 13, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes

or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves—Resolution—*That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
  25. *Mr McCague—Resolution—*That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*
  26. *Mr Eves—Resolution—*That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Standing Order 94(d).)*

Ballot Item Number 19. *To be debated on Thursday, October 12, 1989.*

*Mr Furlong—Resolution—*That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.

Ballot Item Number 20. *To be debated on Thursday, October 12, 1989.*

*Mr Hampton—Resolution—*That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future.

### **PRIVATE MEMBERS' MOTIONS**

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.  
*April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discrimin-

ated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
- 
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
  20. *Mr Furlong*—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. *July 13, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*
26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*

## NOTICES

### GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25 and July 13, 1989.*
20. *Debated October 11, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfran-*

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

20. *Mr Furlong—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario. July 13, 1989.*
21. *Mr Hampton—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. July 17, 1989.*
23. *Mr Eves—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. July 25, 1989.*
24. *Mr Eves—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. July 25, 1989.*

25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*
26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*
27. *Mr Ray (Windsor-Walkerville)*—Resolution—That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:
1. variations in urban growth patterns in Ontario;
  2. causes of this variation in urban growth patterns;
  3. economic, financial, social and environmental consequences of such patterns;
  4. short-range and long-range policy options available to the government and,
  5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth. *October 12, 1989.*
-

To be debated Tuesday, October 17, 1989. Minister of Financial Institutions. *October 11, 1989.*

*To the Lieutenant Governor in Council:—*

We Her Majesty's most dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, now assembled, request the appointment of Roberta Louise Jamieson as Ombudsman for the Province of Ontario, as provided in section 3 of the Ombudsman Act, R.S.O. 1980, chapter 325, to hold office under the terms and conditions of the said Act;

and that the Address be engrossed and presented to the Lieutenant Governor in Council by the Speaker. *October 16, 1989.*

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his*

duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. May 17, 1989.*
20. *Debated October 12, 1989.*
21. *Mr Hampton—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. July 17, 1989.*
23. *Mr Eves—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. July 25, 1989.*
24. *Mr Eves—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the*

best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*

25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*
26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*
27. *Mr Ray* (Windsor-Walkerville)—Resolution—That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:
  1. variations in urban growth patterns in Ontario;
  2. causes of this variation in urban growth patterns;
  3. economic, financial, social and environmental consequences of such patterns;
  4. short-range and long-range policy options available to the government and,
  5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth. *October 12, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provin-

cial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*

To be debated Tuesday, October 17, 1989. Minister of Financial Institutions. *October 11, 1989.*

## NOTICES

### GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25 and July 13, 1989.*
21. *Debated October 16, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfran-*

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*
26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to mon-

itor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*

27. *Mr Ray (Windsor-Walkerville)*—Resolution—That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:

1. variations in urban growth patterns in Ontario;
2. causes of this variation in urban growth patterns;
3. economic, financial, social and environmental consequences of such patterns;
4. short-range and long-range policy options available to the government and,
5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth. *October 12, 1989.*

28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
-

## SPECIAL DEBATES

1. *Mr Cooke* (Windsor-Riverside)—Opposition Day—That this House condemns the government for its mismanagement of its responsibility for automobile insurance—specifically, its failure to make automobile insurance more affordable, more accessible and fairer and its failure to institute a system of driver-owned insurance for the people of Ontario. To be debated today. Minister of Financial Institutions. *October 11, 1989.*

## NOTICES

### GOVERNMENT MOTION

3. *Debated May 17, 18, 23, 24, 25 and July 13, 1989.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
  2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
  8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*
- Therefore, this House:
- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. May 15, 1989.
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords*

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*
26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to

remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*

27. *Mr Ray (Windsor-Walkerville)*—Resolution—That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:
  1. variations in urban growth patterns in Ontario;
  2. causes of this variation in urban growth patterns;
  3. economic, financial, social and environmental consequences of such patterns;
  4. short-range and long-range policy options available to the government and,
  5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth. *October 12, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
29. *Mr Villeneuve*—Resolution—That in the opinion of this House, recognizing that the Government of Ontario has failed Ontario's agricultural sector by:
  1. not providing a higher budgetary and program priority to agriculture;
  2. not consulting with agricultural organizations prior to instituting major program changes;
  3. having a dismal record of co-operation and consultation with the federal government;
  4. providing no leadership within the government to promote alternate crop uses;
  5. cancelling interest rate relief as interest rates have risen;

6. ignoring its own report concerning free trade;
7. failing to recognize in a timely manner the importance and implication of the current GATT round;
8. retreating from announced intentions to protect agricultural land; and
9. not having the policies and means to ensure a healthy agricultural industry for Ontario on the 1990's and beyond;

the Government of Ontario should: provide a program to replace OFFIRR while interest rates remain high; abandon the changes to the Farm Property Tax Rebate Program at least until after consultations take place with the farm community; take a more active role on alternate crop uses, particularly in co-ordinating with other Ministries; and establish a pre-budgetary hearing process to better set agricultural spending priorities. *October 18, 1989.*

## NOTICES

### GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25 and July 13, 1989.*
22. *Mr Ward—Resolution—That the Standing Committee on Social Development be authorized to conduct public hearings concerning the grandfathering under Bill 147 of independent health facilities charging technical fees that were set out in a column denoted by the letter "T" in Regulation 452 of Revised Regulations of Ontario, 1980 made under the *Health Insurance Act*; that the Committee consider the matter for a maximum of four days; and that the public hearings be concluded no later than Wednesday, November 8, 1989. October 19, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and

- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Elec-

tion Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*

26. *Mr Eves—Resolution—*That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*
27. *Mr Ray (Windsor-Walkerville)—Resolution—*That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:
  1. variations in urban growth patterns in Ontario;
  2. causes of this variation in urban growth patterns;
  3. economic, financial, social and environmental consequences of such patterns;
  4. short-range and long-range policy options available to the government and,
  5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth. *October 12, 1989.*
28. *Mr Cousens—Resolution—*That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
29. *Mr Villeneuve—Resolution—*That in the opinion of this House, recognizing that the Government of Ontario has failed Ontario's agricultural sector by:
  1. not providing a higher budgetary and program priority to agriculture;

2. not consulting with agricultural organizations prior to instituting major program changes;
3. having a dismal record of co-operation and consultation with the federal government;
4. providing no leadership within the government to promote alternate crop uses;
5. cancelling interest rate relief as interest rates have risen;
6. ignoring its own report concerning free trade;
7. failing to recognize in a timely manner the importance and implication of the current GATT round;
8. retreating from announced intentions to protect agricultural land; and
9. not having the policies and means to ensure a healthy agricultural industry for Ontario on the 1990's and beyond;

the Government of Ontario should: provide a program to replace OFFIRR while interest rates remain high; abandon the changes to the Farm Property Tax Rebate Program at least until after consultations take place with the farm community; take a more active role on alternate crop uses, particularly in co-ordinating with other Ministries; and establish a pre-budgetary hearing process to better set agricultural spending priorities. *October 18, 1989.*

23. *Mr Nixon (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing November 1, 1989, and ending December 31, 1989, such payments to be charged to the proper appropriation following the voting of supply. ### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and

2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Elec-

tion Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*

26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*
27. *Mr Ray* (Windsor-Walkerville)—Resolution—That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:
  1. variations in urban growth patterns in Ontario;
  2. causes of this variation in urban growth patterns;
  3. economic, financial, social and environmental consequences of such patterns;
  4. short-range and long-range policy options available to the government and,
  5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth. *October 12, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
29. *Mr Villeneuve*—Resolution—That in the opinion of this House, recognizing that the Government of Ontario has failed Ontario's agricultural sector by:
  1. not providing a higher budgetary and program priority to agriculture;

2. not consulting with agricultural organizations prior to instituting major program changes;
3. having a dismal record of co-operation and consultation with the federal government;
4. providing no leadership within the government to promote alternate crop uses;
5. cancelling interest rate relief as interest rates have risen;
6. ignoring its own report concerning free trade;
7. failing to recognize in a timely manner the importance and implication of the current GATT round;
8. retreating from announced intentions to protect agricultural land; and
9. not having the policies and means to ensure a healthy agricultural industry for Ontario on the 1990's and beyond;

the Government of Ontario should: provide a program to replace OFFIRR while interest rates remain high; abandon the changes to the Farm Property Tax Rebate Program at least until after consultations take place with the farm community; take a more active role on alternate crop uses, particularly in co-ordinating with other Ministries; and establish a pre-budgetary hearing process to better set agricultural spending priorities. *October 18, 1989.*

## NOTICES

### GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25 and July 13, 1989.*
23. *Mr Nixon (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing November 1, 1989, and ending December 31, 1989, such payments to be charged to the proper appropriation following the voting of supply. October 23, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the govern-

ment's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act, 1988* setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*

26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*
27. *Mr Ray* (Windsor-Walkerville)—Resolution—That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:
1. variations in urban growth patterns in Ontario;
  2. causes of this variation in urban growth patterns;
  3. economic, financial, social and environmental consequences of such patterns;
  4. short-range and long-range policy options available to the government and,
  5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth. *October 12, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
29. *Mr Villeneuve*—Resolution—That in the opinion of this House, recognizing that the Government of Ontario has failed Ontario's agricultural sector by:
1. not providing a higher budgetary and program priority to agriculture;
  2. not consulting with agricultural organizations prior to instituting major program changes;

3. having a dismal record of co-operation and consultation with the federal government;
4. providing no leadership within the government to promote alternate crop uses;
5. cancelling interest rate relief as interest rates have risen;
6. ignoring its own report concerning free trade;
7. failing to recognize in a timely manner the importance and implication of the current GATT round;
8. retreating from announced intentions to protect agricultural land; and
9. not having the policies and means to ensure a healthy agricultural industry for Ontario on the 1990's and beyond;

the Government of Ontario should: provide a program to replace OFFIRR while interest rates remain high; abandon the changes to the Farm Property Tax Rebate Program at least until after consultations take place with the farm community; take a more active role on alternate crop uses, particularly in co-ordinating with other Ministries; and establish a pre-budgetary hearing process to better set agricultural spending priorities. *October 18, 1989.*

## NOTICES

### GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25 and July 13, 1989.*
23. *Debated October 24, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
  - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfran-*

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

21. *Mr Hampton*—Resolution—That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future. *July 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
25. *Mr McCague*—Resolution—That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act. *July 25, 1989.*
26. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to mon-

itor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province. *July 26, 1989.*

27. *Mr Ray (Windsor-Walkerville)*—Resolution—That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:
  1. variations in urban growth patterns in Ontario;
  2. causes of this variation in urban growth patterns;
  3. economic, financial, social and environmental consequences of such patterns;
  4. short-range and long-range policy options available to the government and,
  5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth. *October 12, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
29. *Mr Villeneuve*—Resolution—That in the opinion of this House, recognizing that the Government of Ontario has failed Ontario's agricultural sector by:
  1. not providing a higher budgetary and program priority to agriculture;
  2. not consulting with agricultural organizations prior to instituting major program changes;
  3. having a dismal record of co-operation and consultation with the federal government;
  4. providing no leadership within the government to promote alternate crop uses;

5. cancelling interest rate relief as interest rates have risen;
6. ignoring its own report concerning free trade;
7. failing to recognize in a timely manner the importance and implication of the current GATT round;
8. retreating from announced intentions to protect agricultural land; and
9. not having the policies and means to ensure a healthy agricultural industry for Ontario on the 1990's and beyond;

the Government of Ontario should: provide a program to replace OFFIRR while interest rates remain high; abandon the changes to the Farm Property Tax Rebate Program at least until after consultations take place with the farm community; take a more active role on alternate crop uses, particularly in co-ordinating with other Ministries; and establish a pre-budgetary hearing process to better set agricultural spending priorities. *October 18, 1989.*

30. *Mr. Reycraft*—Resolution—That in the opinion of this House, recognizing that the federal government's decision to close down the Canadian Forces Base in London, Ontario, will result in a significant loss of employment and dislocation of individuals and families in the community; and further recognizing that there is no significant cost-saving in closing down the base; therefore, the Government of Ontario should urge the Government of Canada to immediately reconsider its decision. *October 25, 1989.*
